Algorithmic Accountability

- Jonathan Zittrain, "Why Facebook Could Decide an Election Without Anyone Ever Finding Out," *The New Republic* (Jun 1, 2014). <http://perma.cc/ED8B-C7YL>
- Zeynep Tufekci, "What Happens to #Ferguson Affects Ferguson: Net Neutrality, Algorithmic Filtering and Ferguson," *Medium* (Aug. 2014).
<https://medium.com/message/ferguson-is-also-a-net-neutrality-issue-6d2f3db51eb0>
- "Stormfront": An example of Localized Search Results Exclusions. The following three links are related to a study conducted by the Berkman Center that investigated Internet filtering worldwide. The following readings focus on a comparison of Google search results for Google.com, Google.fr, and Google.de and examine the discrepancy of results between the three domains for a search for 'Stormfront,' a white supremacist group.
 - Jonathan Zittrain and Benjamin Edelman, "Localized Google search result exclusions: statement of issues and call for data" (October 26, 2002). Overview of discrepancies found between search results on Google.com, Google.fr, and Google.de. Read in conjunction with "Comparison of Google.com and Google.de Results for 'Stormfront' - Screenshot" and the list of "Specific Sites excluded from Google.fr and/or Google.de." Available at
